

— SERVICE DISABLED VETERAN OWNED SMALL BUSINESS

DIGITAL ENGINEERING FOR MISSION ASSURANCE.

Veterans Engineering, Training, and Services (VETS), LLC builds the authoritative digital models strategic programs run on. We connect **requirements, architecture, and analysis** into one source of truth, then automate the documentation and reviews that slow programs down. Government teams and primes work with us to cut technical risk, compress schedule, and field with fewer surprises.

THE LIVING DIGITAL THREAD

ONE AUTHORITATIVE SOURCE OF TRUTH

- ★ SDVOSB
- 📄 Issued U.S. Patent (RDOE)
- 🔒 Top Secret Facility Clearance
- 🏆 CMMC 2.0 Level 2 Certified
- 🤝 Dassault Systèmes Certified Partner

📦 CONTRACT VEHICLES & ACCESS

- Prime — MDA SHIELD IDIQ
HQ085926DG098
- GSA Multiple Award Schedule
47QRAA25D006M
- Prime — AFLCMC EWAAC IDIQ
FA865623DA082
- SBIR Phase II — S-MARS · Phase III pathway
FA2541-24-C-B032 · \$1.88M

🚀 MISSION DOMAINS WE STRENGTHEN

- Missile Defense & Strategic Systems
- Space & Spaceport Systems
- Systems Integration & Mission Engineering
- Nuclear & ICBM Modernization
- C5ISR, Electronic Warfare & Assured PNT
- Golden Dome / Layered Defense Architectures

📦 MODEL BASED SYSTEMS ENGINEERING

Authoritative SysML models, not slideware. The single source the whole program reasons from.

- SysML
- Cameo / MagicDraw
- Requirements Traceability

🔗 DIGITAL ENGINEERING & DIGITAL THREAD

One connected thread from requirement to sustainment, with digital twins and data driven decisions.

- Digital Twins
- Authoritative Source of Truth
- DE Transformation

⚙️ AXONDE · GENAI POWERED MBSE

Our GenAI accelerator drafts models, generates documents, and runs Report Wizard at machine speed.

- Model Generation
- Auto Documentation
- Report Wizard / VTL

👥 INCOSE ALIGNED SYSTEMS ENGINEERING

Full lifecycle engineering by CSEP and OCSMP certified staff against disciplined baselines.

- Architecture
- Verification & Validation
- Technical Baselines

📍 STRATEGIC, NUCLEAR & MISSILE DEFENSE

Domain depth few competitors hold, led by a former USAF Nuclear Weapons Superintendent.

- ICBM Modernization
- Weapon Systems
- Sentinel Digital Thread

📊 PROGRAM & PROJECT CONTROLS

Reviews that pass the first time. Schedule, risk, and milestone discipline that holds up to scrutiny.

- Integrated Master Schedule
- Risk · RIO / RAID
- SRR / PDR / CDR

🔒 SECURE & CUI READY ENGINEERING

Cleared, certified, and built for multiple classification enclaves from day one.

- CMMC 2.0 Level 2
- ITAR / EAR
- NIST SP 800-171

🚀 SBIR & RAPID PROTOTYPING

Prototype to production. Proven R&D execution with an OTA ready posture.

- Phase I-III
- S-MARS
- Apprenticeship · SkillBridge
